### Covid-19 QPS update

As the Corona Virus takes an ever greater hold in the UK , we want to let you know that Quality Pipe Supports (QPS) Ltd is doing our very best to ensure continuity of supply throughout these challenging times.

Naturally, we are following all guidelines set out by the UK government, as well as having implemented a robust contingency plan to mitigate the effects of the virus on the company and our employees. Unfortunately it is looking more likely there will be a period of disruption which undoubtedly may affect our ability to operate at full capacity. We wish to emphasise that there are no cases reported within our company and we are simply doing our bit for the cause, hoping to slow down any transmissions in the UK.

At this stage we simply cannot predict how hard the virus could impact us or our supply chain but with your support and understanding we will do our utmost to service your requirements during this difficult time.

Finally, QPS staff have been told that until it is deemed safe to do so and in the interests of the public, we will cease all travel for any general sales & consultative meetings nor will we be encouraging any unnecessary visits to our site, during this time. We hope you understand and are patient with us during this time as we are sure your company is taking similar measures.

Please, bear with us at this time and appreciate it is something that is potentially affecting not just the UK but the globe as a whole.

Should you wish to contact us our phone hours are 08:00-17:00 (GMT).

I would like to wish both you & your families the very best at this difficult time.

Kind Regards,

Michael Herbert

Director.
