

MODERN SLAVERY STATEMENT

This statement focusses specifically on Quality Pipe Supports compliance with the Modern Slavery Act 2015 (the Act) and highlights the steps we take to assure there is no slavery or human trafficking occurring within the organisation or its supply chains. As highlighted in our Code of Ethics, it is a fundamental policy of Quality Pipe Supports to conduct its business with honesty and integrity and in accordance with the highest standards of ethics, equity and fair dealing.

Quality Pipe Supports provides Pipe shoes and associated fabrications to business customers across the UK and worldwide it employs more than 40 people.

Quality Pipe Supports Human Rights Policy recognises international human rights as set out in the Bill of Human Rights, and the principles described in the UN Global Compact. We have recently updated the Policy to reflect our responsibilities around slavery and human trafficking.

Risks to Quality Pipe Supports associated with the Act are managed in accordance with the QPS Risk Management Policy. Specific materiality assessment is carried out across the supply chain by the procurement manager as required.

Quality Pipe Supports employs solely within the UK and how we treat our employees is managed consistently by the Human Resources Directorate. Our Living Wage accreditation ensures all direct and indirect employees are paid a wage that is over and above the statutory wage levels set by the UK Government. A Living Wage clause is included in contracts that comprise indirect employees to ensure they also receive at least the Living Wage, including where working for a subcontractor. Any breach of these clauses can lead to termination of the contract. Accreditation is externally assured by the Living Wage Foundation.

Quality Pipe Supports HR team have reviewed HR policies and procedures in light of the Act. We have developed a new employee guideline document on human trafficking, modern slavery and forced marriage to ensure our colleagues have access to the information and support they require.

Quality Pipe Supports has a sustainable Supply Chain Policy. Quality Pipe Supports contract templates do not currently expressly mention and request compliance with the Act. Due to the nature and extent of such laws we do not mention them all specifically in our templates. However, these are covered by the Applicable Law definition and associated wording.
